

THE All-In-One 3D CAD solution for organic designs

In its continued tradition to deliver Innovative and powerful solutions, Vision Numeric presents you its new all-in-one shaping solution: **3Shaper Diamond**.

Jump to a NEW DIMENSION in CAD usage!

With over 23 years experience in developing artistic CAD-CAM solutions software and more than 50 000 customers world-wide, Vision Numeric has established its leadership among jewelers, watch makers and designers of luxury goods fashion accessories.

- **Imagine**
- **Shape**
- **Promote**
- **Produce**
- **Customize**

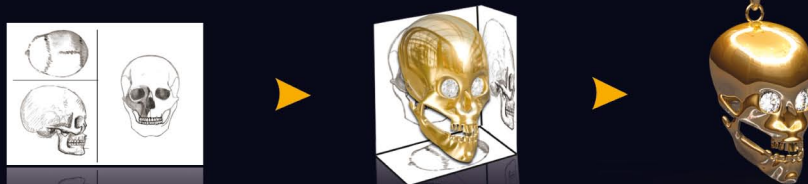

With **3Shaper Diamond**, model as you feel: picking up edges, vertices or surfaces.

Move, scale, or rotate them, each allowing a different type of modeling.

AND MUCH MORE LIKE...

Customize your design and speed your workflow with Jewellery specific and professional features : stone creation, pave (manual, automatic), weight calculations, prong wizard, cutter creation and positioning.

The Draft kit feature : with simple clicks, the designs are ready for 3D printers and production.

All-in-one solution, **3Shaper Diamond** also includes a complete set of ray tracing and animation features for presentations to customers, staff or suppliers. And with simple clicks, the designs are ready for 3D printers and production.

With all these combined, you can bring to life the most incredible designs imaginable!
